

Glasgow, Scotland (2017)

Environmental Performance

71%

EN-1. Does the city have a Greenhouse Gas emissions reduction strategy? Please indicate if it includes specific reference to the events/hospitality industry. Please provide source (i.e./ website or link to PDF document).

Glasgow is a signatory to the EU Covenant of Mayors for Climate & Energy. It has delivered its principal commitment to this important partnership by publishing an Energy Carbon Master Plan. This contains 33 actions which address renewable energy and carbon emissions reductions for the city. The Masterplan makes specific reference to the contribution which the business sector, including the hospitality industry, can make to this agenda through energy efficiency and improved resource use.
